#GRAMFORGRAM

Who would have thought that kitchens — generally perceived as “greasy”, “messy” places — can rank high on the list as a home’s “*Insta-worthy*” spot? With its focus on design aesthetics, Bertazzoni invites you to discover how the moments spent in your kitchen, can truly be picture perfect.

Yet, it’s not all about looks. Thanks to its Italian roots, Bertazzoni products are also designed

and engineered for versatility and precision. With Bertazzoni, form and function become one.

From award-winning designs and bold, avant garde styles, to stylishly and elegantly-designed products with a timeless flair, Bertazzoni’s beautifully engineered cooking appliances have helped people all over the world bring the best home-cooked food to the family table.

# THE **MODERN** SERIES

WHERE CONTEMPORARY MEETS ELEGANCE

The Modern Series brings with it a fresh, contemporary elegance to your kitchen. This is matched by the latest in technology through a choice of intuitive control panels such as the TFT hi-res full touch display, the LCD display, and the LED display. From its built-in ovens and induction hobs to its ventilation hoods, the Modern series tells a very Italian story of design and style.

## **TOUCH CONTROL PANELS**

A defining feature of the Modern series, both the ovens and induction hobs are equipped with a range of intuitive touch control panels such as the TFT hi-res full touch display, the LCD and LED displays. This functionality makes selecting and controlling the correct cooking mode simple, whatever dish you wish to cook.

## **SPECIAL METALLIC FINISHES**

With a choice of special metallic finishes that include Stainless Steel, Copper, Zinc and Carbonio, the oven's design draws inspiration from Italian artisans - applying quality techniques that have been refined over many years. Combined with a beautiful black glass finish, this blends perfectly to give the oven a sleek, clean look.

# THE **PROFESSIONAL** SERIES

WHERE DESIGN MEETS ENGINEERING

The beautifully designed Professional Series offers best-in-category capacity, flexibility and usability; professional performance for your kitchen at home. The Professional Series kitchen suite includes built-in ovens, hobs and ventilation systems. This includes healthier options like its easy-to-use steam ovens, as well as the Bertazzoni Assistant — a smart technology that automatically adjusts oven settings to help you produce perfect dishes again and again.

## **ICONIC DESIGNER CONTROLS**

Reflecting the Professionals Series' signature look, it features distinguished iconic designer control knobs. Ergonomically-designed, the beveled lines provide a highly comfortable tactile experience while lending a contemporary undertone to the entire range appearance.

## **PRECISION COOKING**

The oven's fan technology delivers optimal heat distribution for a faster heat-up time, while the heavy-duty cast iron hobs are designed for pots to have closer proximity to the flame, allowing them to reach boiling point faster and reducing gas usage.

**Kenneth, The Mixtape Chef**

As a private dining chef, I love the functionality of the Bertazzoni Professional Series Steam Oven. An oven that can steam delicate fish and is yet powerful enough for pizza gives me so much versatility in my cooking.

(UP: \$1,888)

# THE **HERITAGE** SERIES

WHERE TRADITION MEETS TECHNOLOGY

Featuring iconic and timeless pieces, the Heritage Series not only took styling cues from the past, but marries it with the high-standard engineering that Bertazzoni is renowned for. The Heritage Series built-in kitchen suite includes built-in ovens, hobs and ventilation systems.

## **DESIGN INSPIRED BY TRADITION**

Inspired by the original wood burning stoves that our founder created at the start of the last century, the Heritage Series ranges are controlled by striking rounded chrome knobs. Familiar and comfortable to use, they are a key part of the design character of the series.

## **COLOURS**

The Heritage Series are available in texture and enamel finishes. Texture paint offers a classic, elegant deep, touch finish, available in three beautiful matt colors from the Colours of Italy collection: nero and crema. Built-in products are available in nero matt texture as well as a choice of enamel finishes in Avorio and Nero Decor.
