# RELIVE YOUR IMAGINATION

With the Modern Series, Bertazzoni offers a palette of rich colours and fine finishes to give your kitchen the contemporary elegance you seek. Our designers and engineers have blurred the boundaries of art and science, combining glass and precious metals to tell a very Italian story of design and style. The clean, minimalist lines of the Modern Series let it seamlessly fit into your desired decor, ensuring a timeless appeal that perfectly reflects the demands of your own aesthetics.

# MODERN SERIES

## SPECIAL METALLIC FINISHES

With a choice of special metallic finishes that include Stainless Steel, Copper, Zinc and Carbonio, the oven's design draws inspiration from Italian artisans - applying quality techniques that have been refined over many years. Combined with a beautiful black glass finish, this blends perfectly to give the oven a sleek, clean look.

## TOUCH CONTROL PANELS

A defining feature of the Modern series, both the ovens and induction hobs are equipt with a range of intuitive touch control panels such as the TFT hi-res full touch display, the LCD and LED displays. This functionality makes selecting and controlling the correct cooking mode simple, whatever dish you wish to cook.

# REIGNITE YOUR PASSION

Fall in love with the craft of cooking all over again. More than a beautifully designed oven, the Professional Series offers best-in-category capacity, flexibility and usability to deliver professional performance in your home kitchen. The distinctive, award-winning style elements work harmoniously with an innovative approach to functional engineering to ensure an excellent cooking experience, so that you will always be inspired to create your perfect dishes.

# PROFESSIONAL SERIES

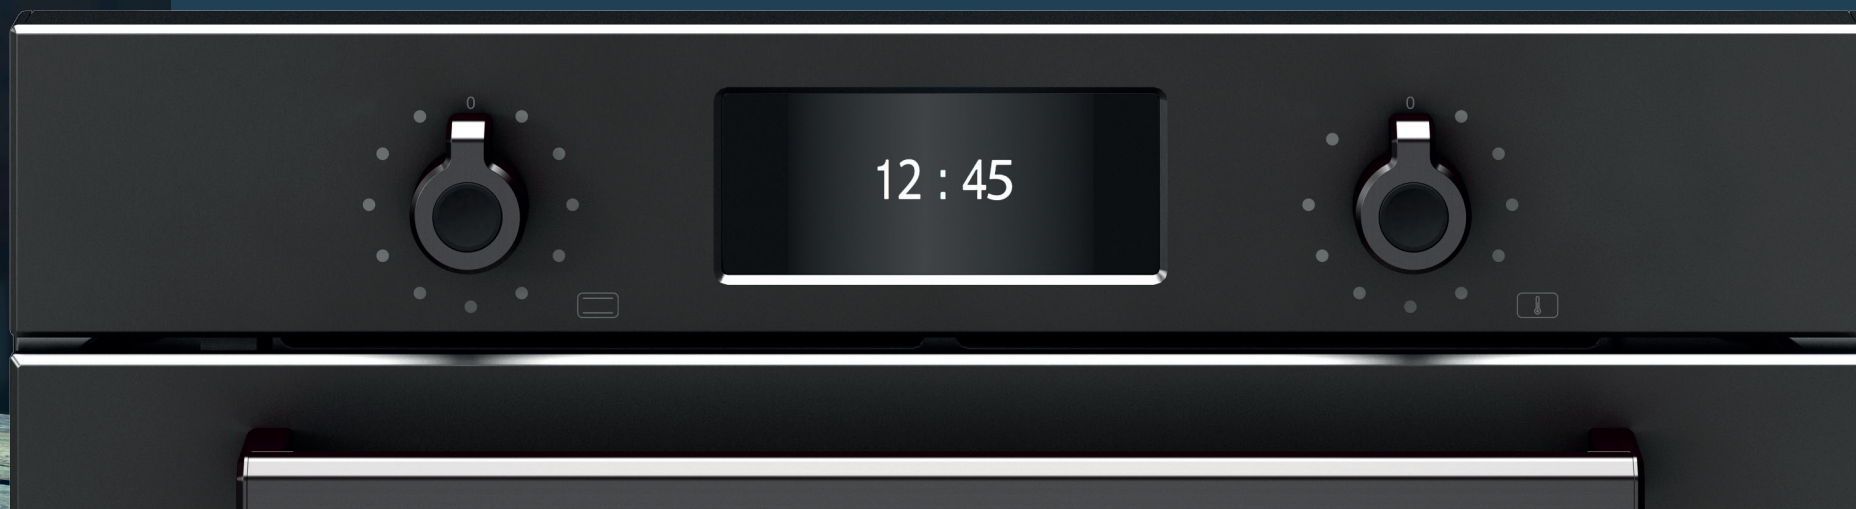

## ICONIC DESIGNER CONTROLS

Reflecting the Professionals Series' signature look, it features distinguished iconic designer control knobs. Ergonomically-designed, the beveled lines provide a highly comfortable tactile experience while lending a contemporary undertone to the entire range appearance.

## PRECISION COOKING

The oven's fan technology delivers optimal heat distribution for a faster heat-up time, while the heavy-duty cast iron hobs are designed for pots to have closer proximity to the flame, allowing them to reach boiling point faster and reducing gas usage.

# REALISE YOUR DREAM

Show off your distinctive personality with the Heritage Series, an aesthetic inspired by the original Bertazzoni stoves that Napoleone Bertazzoni created at the start of the 20th century. This stylish nod to nostalgia is complemented by state-of-the-art engineering, resulting in a masterpiece that celebrates both the traditions of yesterday and the exciting possibilities of tomorrow, making it the perfect present for today.

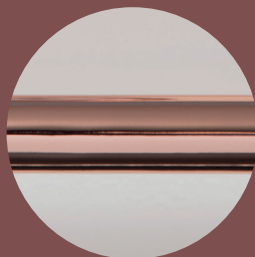

# HERITAGE SERIES

## DESIGN INSPIRED BY TRADITION

Inspired by the original wood burning stoves that our founder created at the start of the last century, the Heritage Series ranges are controlled by striking rounded chrome knobs. Familiar and comfortable to use, they are a key part of the design character of the series.

## COLOURS

The Heritage Series are available in texture and enamel finishes. Texture paint offers a classic, elegant deep, touch finish, available in three beautiful matt colors from the Colours of Italy collection: nero and crema. Built-in products are available in nero matt texture as well as a choice of enamel finishes in Avorio and Nero Decor.
